***Working Together For Safer and Healthier
Federal Workplaces***

FEDERAL WORKER 2000

Coverage

- **Safety & Health for Executive Branch Agencies**
 - *Section 19 of the Occupational Safety and Health Act of 1970*
 - *Presidential Executive Order 12196*
- **Federal Employees' Compensation Act (FECA)**

FEDERAL WORKER 2000

○ Why the need for an Initiative?

- 160,000 Reported Injuries and Illnesses in Federal Workplaces each year.**
- Annual Payment of nearly 2 Billion Dollars in Workers' Compensation Costs.**

FEDERAL WORKER 2000

○ How do we meet this challenge?

- *A charge to all Cabinet Officers and Agency Managers to get involved;***
- *Raising Agency awareness of the human and financial costs of the high incidence of Workplace Injury and Illness; and***
- *The establishment of measurable goals to improve or reduce 4 major Safety & Health related indicators.***

FEDERAL WORKER 2000

○ Defining Success with Measurable Indicators:

- **Reduce** the total rate (TCR) of Injury/Illness Cases per 100 employees at agencies with rates above 2.0;
- **Decrease** the Average Reporting Time by Federal agencies for new injuries and illnesses incurred at work.
- **Reduce** the rate of Lost Time Cases (LTCR) per 100 employees at agency locations with rates at or above two times the FY-96 Federal average;
- **Reduce** the rate of Lost Production Days (LPDR) per 100 employees due to injury/illness incurred at work; and

FEDERAL WORKER 2000

GOAL 1

- *Reduce the overall occurrence of injuries by 3% per year, while improving agencies' timeliness in reporting injuries and illnesses to the Department of Labor by 5% each year.*

FEDERAL WORKER 2000

■ A Government-wide Goal:

- *FY-97 will be the “Base Year”;*
- *Government-wide average for total number of cases reported each year (TCR) = 5.63 injuries/100 employees (4.14 without USPS);*
- *All Agencies with TCR above 2.00 to reduce their rate 3% per year for 5 years. Those below 2.00 to maintain their rate;*
- *Improve the 49% average for Agency timeliness in reporting of injury and illness.*

FEDERAL WORKER 2000

GOAL 2

- **Reduce** the lost time case rate (LTCR) for those worksites with the highest rates by 10%.

FEDERAL WORKER 2000

- A goal for Agencies with the highest LTCR's:
 - In **FY-96** Federal Agencies experienced an **average 2.67 cases per 100 employees** with Lost time;
 - Agency worksites with LTCR's **two times the FY-96 average or more** have the greatest potential for improvement and will be asked **to work toward a 10% reduction per year.**

FEDERAL WORKER 2000

GOAL 3

- Reduce the rate of Lost Production Days -- that is, the number of days employees spend away from work -- by 2% per year.

FEDERAL WORKER 2000

- **Keeping Federal Workers on the Job:**
 - **The reduction of lost production days is a balanced goal that can be accomplished by reducing injuries, lessening their severity or effecting an earlier return to work -- all of which reduce the average length of disability;**
 - **This is a goal that can be embraced by management and employee representatives**

FEDERAL WORKER 2000

■ OSHA and OWCP's Roles:

- *To track and measure Agency progress and provide feedback annually;*
- *To provide the White House with an annual status report;*
- *To provide technical/compliance assistance, and training to agencies upon request;*

FEDERAL WORKER 2000

OSHA and OWCP's Roles:

- Provide special training on Safety and Health topics for local Federal Safety and Health Councils;**
- In cooperation with Federal Executive Boards/Councils, conduct Federal Worker 2000 Seminars for Federal Agencies;**
- Prepare for a Presidential Awards Ceremony at the end of the initiative;**
- Annually, conduct random inspections of 10% of the worksites with the highest LTCR.**

FEDERAL WORKER 2000

- Every year approximately \$250 million in new medical and compensation costs are incurred with respect to that year's injuries and illnesses.
- During the five years of this initiative potential Agency chargebacks will provide a base of \$1.25 billion from which savings can be achieved.
